

MED-RITE™

MED-RITE™

PRACTICE  
ASSESSMENT

**RISK  
MANAGEMENT  
FOR THE  
OFFICE-BASED  
PRACTICE**

# *Prevention Is The Best Defense*

In our rapidly changing health care delivery system, more and more patient care is being delivered in office-based settings. As the frequency and complexity of this care increases, so does the likelihood of a physician's exposure to professional malpractice litigation.

*MED-RITE™ Can Help You Protect  
Your Practice and Your Reputation.*

MED-RITE™ is a specialized practice assessment program offering physicians a uniquely individualized approach to reviewing their office practice from a liability perspective.

*A Unique Risk Management Program for Changing Times...*

*MED-RITE™ Can Help You Protect Your Practice and Enhance Patient Care.*

Our Risk Management Consultant will:

- Interview physicians and staff
- Review medical records
- Analyze your claims history and practice trends and compare them to national data
- Identify and evaluate your managerial, clinical and supportive practice patterns
- Provide guidelines to control or eliminate potential claims

MED-RITE™ participation can substitute for attending one (1) annual Risk Management seminar, and qualifies participants for a 5% discount on the next renewal of their professional liability insurance policy.

MED-RITE™ works closely with you to formulate a comprehensive risk improvement program that will:

- Identify your areas of risk
- Develop specialty-specific recommendations for your practice
- Provide follow-up consultation

With the extensive claims and medical expertise of our Risk Management Consultants, this comprehensive non-clinical review encompasses analysis of documentation practices, compliance awareness, follow-up and tracking systems, personnel utilization, communication issues, facility site assessment, and risk management policies and procedures.

MED-RITE™ is for large, multi-specialty practices, as well as for solo practitioners, because the versatile MED-RITE™ program is customized to meet the specific needs of each medical practice, physician and facility.

MED-RITE™ is unique because of its emphasis on *Education and Resource Development and Management of Personnel.*

*MED-RITE™*

**1-800-492-0193**

The best choice for the Physician concerned about reducing liability risks associated with patient care and practice management.

*MED-RITE™*  
**Objectives...**

1. Identify current risk management issues specific to your specialty.
2. Outline methods for implementing systems designed to reduce or eliminate the risk of exposure.
3. Identify risk management principles applicable to your practice.
4. Recognize and build on the strengths of your practice while working to eliminate any weaknesses.
5. Identify staff members who will be responsible for monitoring and updating risk management procedures in your office.
